

CENTENARY

PATIOS, CARPORTS & VERANDAHS

**If you can imagine it.
You can do it
with Fielders.**

25
Year | **Platinum
Guarantee**

25-year Structural Warranty

The exclusive Fielders Centenary® Platinum Guarantee gives you an incredible 25-year guarantee across the range. This industry-leading warranty speaks volumes about the faith we have in the engineering and quality steel components that go into every Centenary® structure.

Call your new outdoor area what you want – pergola, patio, verandah or even carport – if you want a place to play, work, party, relax or just park your car, bike or boat, you can get it with a Fielders Centenary® outdoor home addition.

The Centenary® range is the perfect way to add the finishing touches to your home, by providing spaces that not only look great, but are functional and add value.

So whether you want extra space to entertain family and friends, or added protection to keep the sun and rain off the daily driver or weekend cruiser, Fielders Centenary® has the answer.

And because everyone's needs are different, Centenary® is available in a wide range of designs, colours, styles and sizes, allowing you to customise your structure to suit your lifestyle.

The Centenary® difference

Manufactured from premium Aussie steel, and featuring high-quality engineering, the Centenary® range is built to go the distance. It's also available in a huge range of colours, roofing styles and finishes, so it's easy on the eye.

Here are some extra reasons to choose a Centenary® outdoor structure:

- Get a fully engineered, low maintenance structure that will look good for years to come
- Covered by Fielders' Platinum Guarantee including a 25-year structural warranty¹
- A choice of attached or free-standing designs
- Insulated roof panel options available for even more protection from the hot Aussie sun
- Larger spans thanks to the strength of steel
- Wide variety of roof and gutter options
- High gloss beams and posts for a premium, stylish look
- The latest on-trend colours from the COLORBOND® steel range
- Be the envy of friends and neighbours

Patios, Pergolas & Verandahs

Having a functional and attractive outdoor area is the perfect way for Aussies to indulge in their love of barbeques, entertaining and other indoor-outdoor activities, particularly in the warmer months.

The Centenary® range of patios, pergolas and verandahs are stylish and practical – they're also an affordable way to attain the alfresco lifestyle that we all crave. And if you do eventually sell-up, your investment in Centenary® will also be attractive to future buyers, potentially adding value and appeal to your property.

If you're worried that a Centenary® structure may not suit the style of your home, don't be. With an abundance of roof and gutter styles, sizes, colours and finishes available,

designs can be fully customised, ensuring your addition will blend seamlessly with your home – it won't matter if it's heritage, contemporary or somewhere in between.

And if you have something truly special in mind, Centenary® can even cater to large, expansive areas, with patios and verandahs in the range fully engineered to a height of 4 metres.

The Centenary® range's two-piece, rollformed COLORBOND® steel beam construction also means it's virtually maintenance free, so unlike timber structures you can put the tools down because there'll be no repainting, warping, rotting or splitting to worry about.

Carports

Depending on where you live in Australia, you can regularly face 40 degree plus summer days, sheeting rain in the wet season or winter, high winds and even snow.

Given this, a Centenary® carport is the perfect way to keep your cars, boats and motorbikes better protected from our harsh environment. Made using materials developed and manufactured here in Australia to suit local conditions, a Centenary® carport is efficient to install and will provide your car, boat or other vehicles, with years of hassle-free protection.

Decking Systems

The Centenary® Decking System is designed to complement Centenary® patios and verandahs, providing a strong and low maintenance alternative to timber framework and handrails.

Using an innovative structural system that combines modified box beams up to 208 x 65mm in size and simple connection methods, Centenary® decking is a simple, cost-effective and fully engineered steel flooring system. Its benefits include:

- 10-year structural warranty¹
- Made from premium Australian steel
- Resists termites, rotting or warping
- Large span capability reduces cost
- Provides a fire-safe sub-structure for your deck
- Each Centenary® deck is easy to install, with all components pre-cut and supplied as a kit

Design it your way with Fielders

Design the perfect home addition with the wide range of options and styles available with Centenary®.

Centenary® takes the guesswork out of designing your outdoor structure. If you fancy building the structure yourself, we can also provide you with information about any local government permits and approvals you might need.

Structure Types

Dutch Gable

Large portal beams allow for opening widths larger than 10m without the need to add columns.

Freespan

Available as a single gable or combined with flat roof sections, this clear, uncluttered design features no internal roof purlins.

Flat Roof

Whether attached or free-standing, a flat roof patio or verandah is cost-effective in its design and can be combined with various roofing and guttering profiles.

Hip Roof

Engineered for strength, the hip roof complements most house styles and is equally at home in contemporary or traditional settings.

Skillion

A skillion roof is similar to a flat roof, but with an attractive and modern slope, plus the benefit of allowing light to filter in.

Gable End

A popular choice for most Centenary® verandahs, carports and patios. Add infills to your gable end design for a unique, custom look for your Fielders Centenary® design.

Cantilever

The modern cantilever design allows for additional usable space, especially great for entertaining areas and walkways.

Standard Roof Pitch Options

15°

20°

25°

30°

Beam Sizes

- 65mm x 65mm
- 108mm x 65mm
- 158mm x 65mm
- 208mm x 65mm

Note: Not all beams may be suitable for all applications.

Accessories

Fan Bracket

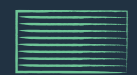

Skylight

Downlight Flashing

Gable Infills

Slats

Note: Some accessories may not be suitable for every project design. Please check with your Fielders Centenary® Dealer.

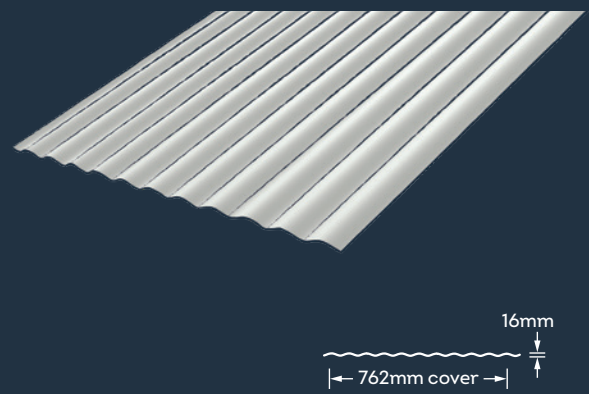

Roofing Options

S-Rib™

An iconic profile that has stood the test of time. Equally at home on heritage projects through to the most contemporary designs, S-Rib™ Corrugated is the economical choice for covering large roof areas. Light weight and easy to install, S-Rib™ is the economical choice for your new Centenary® home addition.

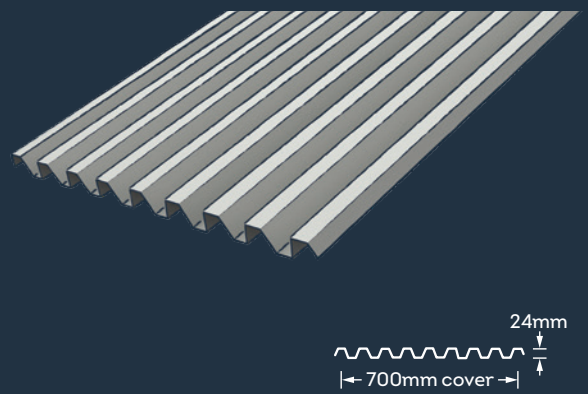

Available in: NSW/ACT, SA, VIC

Spanform™

Spanform™ is a square corrugated profile with a contemporary look that delivers a robust, distinct styling to roofing or walling applications. By blending strength, lightness, and rigidity, this widely used cladding provides durability, impact-resistance, and affordability, while also presenting an aesthetically pleasing and textured appearance.

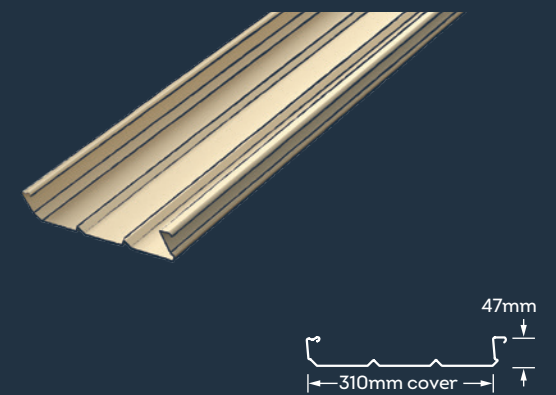

Available in: NSW/ACT, SA, VIC

C-Dek™

For a stylish patio, veranda, pergola or carport with a flat ceiling-like underside, C-Dek™ is the perfect roofing choice, with its high-gloss finish and availability in a range of popular colours. Additionally, C-Dek™ has long spanning capabilities, which helps to maximise overhead space and minimise intrusions from beams and posts.

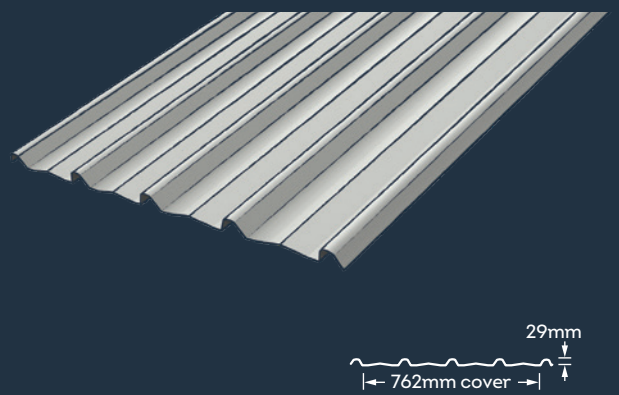

Available in: NSW/ACT, SA, VIC

TL-5™

TL-5™ is both versatile and economical while still providing a clean and crisp modern finish thanks to its trapezoidal ribs and refined fluting in the pans. Its excellent spanning capabilities permit wide support spacings and also makes it efficient to install in both roofing and walling applications. With a large sheet coverage and specially designed capillary grooves, TL-5™ combines excellent value and the ability to achieve very low roof pitches.

Available in: NSW/ACT, SA, VIC

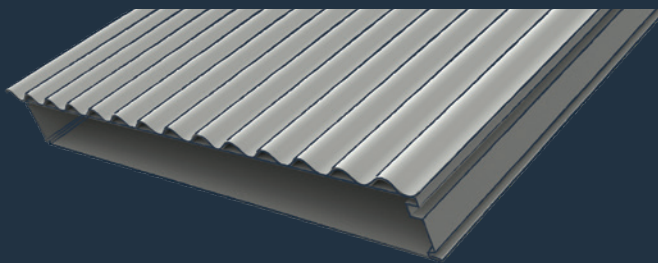

Bondor® InsulRoof®

InsulRoof® is a long-spanning insulated roof panel that features a corrugated roof profile and a pre-finished steel ceiling lining combined with Bondor's new proprietary dual layered insulating core technology.

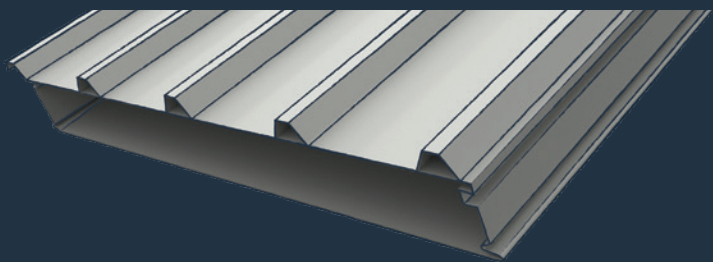

Available in: NSW/ACT, SA, VIC as part of a Centenary® kit

Bondor® SolarSpan®

SolarSpan® is another long-spanning commercial and residential insulated roof panel system that combines roofing, fire resistant insulation and a pre-painted ceiling in one durable, functional and attractive roof panel.

Available in: NSW/ACT, SA, VIC as part of a Centenary® kit

Fielders Centenary® Colour Range

Your Centenary® structure can be custom designed and supplied in a wide range of COLORBOND® steel colours and finishes so you can choose the exact look that sets the tone for your whole home or complements your other building materials.

Double-Sided High-Gloss Roofing²

Beam and Posts³

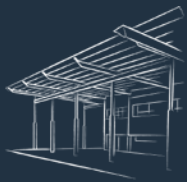

Fielders and COLORBOND® steel – a perfect combination

COLORBOND® steel is the Australian made pre-painted steel that is supplied to Fielders in large coils by BlueScope. Fielders then rollforms the COLORBOND® steel into our range of roofing, walling, guttering and fascia profiles, plus components for fencing systems and home additions such as verandahs, patios and carports.

Product Descriptions

All descriptions, specifications, illustrations, drawings, data, dimensions, and weights contained in this publication and websites containing information from Fielders are approximations only. They are intended by Fielders to be a general description for information and identification purposes and do not create a sale by description. Fielders reserves the right at any time to:

- a) Supply goods with such minor modifications from its drawings and specifications as it sees fit, and
- b) Alter specifications shown in its publications and websites to reflect changes made after the date of publication.

Not all Fielders® products are available in all materials, finishes and colours shown. Material, finish and colour availability is indicative only and is subject to change without notice – contact Fielders, your reseller, builder, or installer for more information. The colour swatches shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones and finishes.

¹Warranty is subject to terms and conditions. Visit fielderscentenary.com.au for details.

²Double-sided high-gloss roofing is manufactured with classic finish on the topside and high-gloss finish on the underside.

³Beams and posts are manufactured with high-gloss finish.
