

ENDURANCE

SHEDS & STRUCTURES

**If you can imagine it.
You can create it with Fielders.**
**Sheds for coast, country and
everywhere in between.**

**We all know that one size doesn't
necessarily fit all, especially when
it comes to sheds. That's why the
Fielders Endurance® range of sheds
and structures is so special.**

If you're in need of additional storage or workspace in your backyard, require a sturdy structure to protect valuable equipment on your land, or are engaged in a large-scale commercial project, there'll likely be a Fielders Endurance® shed to suit.

Fielders can even customise a shed or structure to suit your exact needs – we'll design and engineer your new Endurance® shed to the size, style, colour and configuration that's just right for your application.

As well as being practical and looking great, every shed in the Endurance® range is built using premium Australian-made COLORBOND® steel, ZINCALUME® steel and GALVASPAN® steel sourced from BlueScope and comes backed by Fielders premium reputation for quality and service. This means Endurance® sheds and structures are not only built to last under tough local conditions but also and well supported by a local manufacturer you can trust.

Fielders and COLORBOND® steel – a perfect combination

COLORBOND® steel is Australian-made pre-painted steel that's supplied to Fielders in large coils by BlueScope. Through a process known as rollforming, Fielders forms the COLORBOND® steel into roofing, walling, guttering and fascia profiles, plus components for fencing systems and home additions such as verandahs, patios and carports. And where pre-painted products are not needed, Fielders also forms ZINCALUME® steel into unpainted roofing, guttering and fascia products.

Colorbond®

Endurance® Range

There's a Fielders Endurance® shed for almost every situation. Whether you're a homeowner seeking additional space, a business owner in need of commercial storage, or you're in a rural setting requiring a reliable structure, our sheds are designed and engineered for long term peace of mind. Explore our range and discover the perfect shed for your residential, commercial, or rural application.

Residential

Whether you're simply storing tools or creating the ultimate man cave, Fielders can design and build the perfect Endurance® shed or structure for you including:

- Garages
- Workshops
- Domestic sheds
- Carports

Commercial

No matter your business needs, we can craft a tailored workspace with a flexible design and a variety of accessories, ensuring your shed suits your unique requirements. Styles we offer include:

- Industrial buildings
- Warehouses, factories and storage shed
- Workshops
- COLA (Covered Outdoor Leaning Area) shelters
- Aircraft hangers

Rural

Whether it's storage, a workshop, or protecting valuable equipment, we can customise a shed to meet your needs. With a flexible design approach and a wide range of accessories, you can have it all with a Fielders Endurance shed. Styles we offer include:

- Barns
- Farms and hay sheds
- Machinery sheds
- Equine stables and arenas
- Storage sheds

Key benefits

- Custom designed and manufactured using the componentry required for the specific demands and application of your shed
- Engineered to specific location and wind speed areas to stand up to the tough Australian conditions
- Supporting documentation provided for council approval and installation
- Cladding available in .42mm and .48mm base metal thickness for stronger and more durable walling
- Standard engineering spans for 'zed' sheds up to 30m, allowing for up to 6m bays
- Standard engineering spans for 'cee' sheds up to 27m, allowing for up to 5m bays
- Availability of mezzanine floors to maximise space and storage
- Wide choice of colours from the COLORBOND® steel colour range

Why Endurance®?

Built tough to meet the rigours of everything from agricultural work to domestic storage needs in demanding Australian conditions. The Endurance® range will provide the added space and functionality to handle a busy rural lifestyle or business.

Freedom of choice

Choose from a wide range of options that can be tailored to suit the exact needs of your business or lifestyle, including shed size, cladding profile, colours and accessories.

Engineered to last

Every component of an Endurance® shed has been designed using our specialist design software, to meet the structural requirements of your specific location and wind area.

Designed to look great

The components are not only engineered for optimal performance; each part is custom-designed and manufactured to ensure a perfect fit, resulting in a high-quality finish.

Council approvals made easy

We provide you with all the supporting plans and drawings you'll need when seeking council approvals.

Built to last

All sheds are manufactured using quality Australian-made steel from BlueScope. Genuine COLORBOND® steel in a full suite of colours is used for roofing, walling and rainwater components while long-lasting, alloy coated GALVSPAN® steel is used for structural elements.

ShedSafe® accredited

Every Endurance® shed is accredited by the Australian Steel Institute (ASI). ShedSafe® is the national industry standard benchmark for steel sheds and must be earned by suppliers.

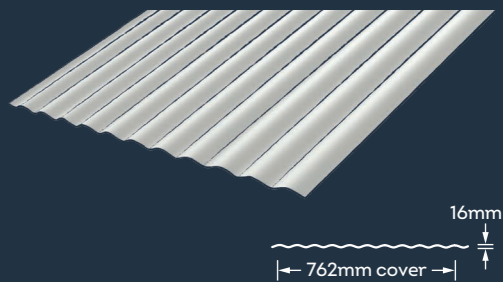

Design it with Fielders

Endurance® sheds, garages and carports are available with a range of Fielders® roofing, walling and rainwater product options. Manufactured from COLORBOND® steel these products are available in a range* of colours and finishes shown on the following page. When imagining your Endurance® structure, you've also got the choice of a wide range of fitout components and accessories to personalise your design.

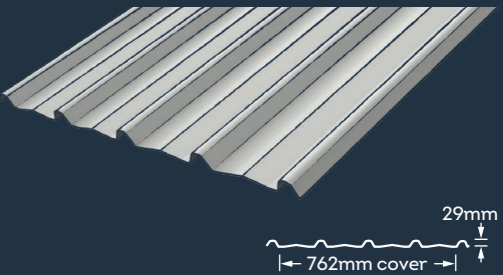

S-Rib™ Corrugated

The iconic corrugated profile that has stood the test of time. Equally at home in the suburbs or on the farm, S-Rib™ Corrugated is light weight, easy to install and the economical choice for covering large roof and wall areas.

TL-5™

TL-5™ is both versatile and economical while still providing a clean and crisp modern finish thanks to its trapezoidal ribs and refined fluting in the pans. Its excellent spanning capabilities permit wide support spacings and also makes it efficient to install on either your shed's roof or wall.

A Note on Availability

Not all Fielders® products are available in all materials, finishes and colours shown - contact Fielders, your reseller, builder, or installer for more information.

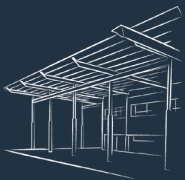

SA and BCA Classification Explained

SA = Solar Absorptance. The classification of colours in the BCA is based on solar absorptance, which is the inverse of solar reflectance, expressed as a ratio between 0 and 1. A SA value of 0 indicates that a roof absorbs none and a value of 1 indicates that a roof absorbs 100% of the incoming solar radiation. Solar absorptance value is not applicable for SUPERDURA® Stainless steel. See the individual colour swatches for the SA value for each product and colour.

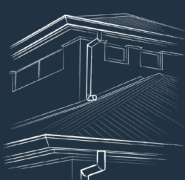

BCA = The Building Code of Australia (BCA) has classified roof colour on the basis of their solar absorptance, referred herein as Light (L < 0.40), Medium (M < 0.60), Dark (D > 0.60). See the individual colour swatches for the ratings available for each product and colour. BCA classification is correct at the time of printing but may be subject to change. Check your local state building regulations at the time of your project.

Product Descriptions

All descriptions, specifications, illustrations, drawings, data, dimensions, and weights contained in this publication and websites containing information from Fielders are approximations only. They are intended by Fielders to be a general description for information and identification purposes and do not create a sale by description. Fielders reserves the right at any time to:

- a) Supply goods with such minor modifications from its drawings and specifications as it sees fit, and
- b) Alter specifications shown in its publications and websites to reflect changes made after the date of publication.

Not all Fielders® products are available in all materials, finishes and colours shown. Material, finish and colour availability is indicative only and is subject to change without notice - contact Fielders, your reseller, builder, or installer for more information. The colour swatches shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones and finishes.

Warranty is subject to terms and conditions. Visit fieldersendurance.com.au for details.
